Horse
Society

Recognising colic early and acting quickly gives your horse the best chance of recovery. The five REACT signs are the most common and important indicators of colic (based on research from the University of Nottingham). If you see ANY of these signs, call your vet for advice.

If you notice **any** of these signs

REACT NOW CALL YOUR VET

For more information
please visit: bhs.org.uk/colic

When you recognise **any** of these clinical signs of distress, you won't have time to spare. Be prepared by gathering vital contact information today. Display it near your stable and store it in your mobile.
