

Passport update form - equine details

To apply for a BHS equine passport update:

- 1) Passport update form must be completed and signed by registered owner
 - 2) Veterinary Surgeon to complete the form according to changes required - the marking chart should only be completed if the existing chart within the passport is not a true reflection of the animal
 - 3) Submit BHS equine passport to the below address with the completed form - there is no charge for these updates
- The application will be processed within 10 days of arriving with BHS Passport Office, subject to correct paperwork; the passport will be returned via Royal Mail 2nd Class Signed For TM.

For further information, contact the office: 02476840517 (option 4) / passport@bhs.org.uk

Signature and stamp of veterinarian or qualified person or competent authority (name in capital letters)

IDENTIFICATION PROCEDURE – important information for completing the form

The recommended procedure for identification is described in the FEI booklet 'Identification of Horses'. The diagram and written description must agree and be sufficiently detailed **(at least five identifying marks such as whorls or white markings)** to ensure the positive identification of the animal in the future. White markings must be shown in **RED** and the written description completed using **BLACK INK** in **BLOCK CAPITALS** or **TYPESCRIPT**. If there are no white markings, this fact must be stated in the written description. All head and neck whorls should be marked ('X') and described in detail. Other whorls should be similarly recorded in greys and in animals lacking sufficient other distinguishing marks. Acquired marks ('V') and other distinguishing marks, such as prophet's thumb mark ('+'), walleye and so on, should always be noted. **The Veterinary Surgeon must indicate the location of the microchip on the silhouette with a (M) symbol.**

Nom du cheval: Name of Animal:		Hauteur hh/cms/inches: Approx. Adult Height:
