

Horse health day activity sheet

Record the weights and fat score (0-5) of your chosen horses.

Split into the neck (N), middle (M) and hind (H) and mark any fat pockets you feel, on the diagrams below:

EXAMPLE:

Horse height: 13.2hh Age: 15

Breed: Welsh Section C

Health condition: Cushing's disease

Estimated weight (kg): 327

Weigh tape (kg): 350

Weighbridge weight (kg): 365

Fat score		
Neck	Middle	Hind
4	3.5	3.5

Horse height: _____ Age: _____

Breed: _____

Health condition: _____

Estimated weight (kg): _____

Weigh tape (kg): _____

Weighbridge weight (kg): _____

Fat score		
Neck	Middle	Hind

Horse height: _____ Age: _____

Breed: _____

Health condition: _____

Estimated weight (kg): _____

Weigh tape (kg): _____

Weighbridge weight (kg): _____

Fat score		
Neck	Middle	Hind

Horse height: _____ Age: _____

Breed: _____

Health condition: _____

Estimated weight (kg): _____

Weigh tape (kg): _____

Weighbridge weight (kg): _____

Fat score		
Neck	Middle	Hind

Horse height: _____ Age: _____

Breed: _____

Health condition: _____

Estimated weight (kg): _____

Weigh tape (kg): _____

Weighbridge weight (kg): _____

Fat score		
Neck	Middle	Hind

Horse height: _____ Age: _____

Breed: _____

Health condition: _____

Estimated weight (kg): _____

Weigh tape (kg): _____

Weighbridge weight (kg): _____

Fat score		
Neck	Middle	Hind
